

2024 Annual Scientific Meeting

27–29 November Parkroyal Darling Harbour, Sydney

#hypertensionasm2024

POSTER LISTING

Program as of 19/11/2024

	Clinical trials and blood pressure measurement
P100	Dr Audrey Adji, St Vincent's Hospital; UNSW; VCCRI
	Association between arterial stiffness and cognitive decline in older individuals with mild cognitive impairment
P101	Dr Tan Bui, Menzies Institute for Medical Research, University of Tasmania
	Systematic review of the proportion of females and males recruited in blood pressure device validation studies and
D400	relationship with measurement accuracy
P102	Dr Tan Bui, Menzies Institute for Medical Research, University of Tasmania ECR poster finalist
	Properly validated wrist cuff devices provide accurate blood pressure measurements: A systematic review and meta-
P103	analysis Assoc Prof Jonathan Mynard, Murdoch Children's Research Institute
FIUJ	Validation of the Uscom BP+ Automated Oscillometric blood pressure monitor for professional office use in children
	and adolescents according to the AAMI/ESH/ISO Universal Standard (ISO 81060-2:2018)
P104	Dr Dean Picone, University of Sydney
	Is there a difference in the accuracy of automated blood pressure devices designed for home or in-clinic use? A
	systematic review and meta-analysis of validation studies
P105	Prof James Sharman, Menzies Institute for Medical Research
	Strong support for automated office blood pressure in Australian general practice: Enablers and challenges to
	implementation
P106	Prof James Sharman, Menzies Institute for Medical Research
	Guideline-recommended office blood pressure measurement is not feasible in routine clinical practice: Time to align
P107	clinical guidelines with clinical reality Ms Mingjuan Zeng, School of Population Health, University of New South Wales; The George Institute for
P107	Global Health Student poster finalist
	Consumer perspectives on different blood pressure measurement methods in Australia
	Comorbidities
P108	Miss Yuvi Lutchman, University of New England
F100	Beyond the beats: Is central blood pressure variability associated with mental health?
P109	Miss Mariya Patel, Swinburne University of Technology
1 100	Association between resting-state brain dynamics and cardiometabolic profile in healthy individuals with varying
	adiposity levels
	Complications of Hypertension (stoke, kidney disease, heart failure, aortic aneurysm and
	others)
P110	Dr Taku Furukawa, Florey Institute
	Validating the safety and reliability of recruiting renal functional reserve to predict the risk of acute kidney injury
	transitioning to chronic kidney disease in a sheep model of cardiopulmonary bypass
P111	Dr Lakshini Herat, UWA School of Biomedical Sciences - Dobney Hypertension Centre
	Dual Inhibition of SGLT1 and 2 promotes cardio-renal protection in mice with type 1 diabetes
P112	Dr Sapna Ramdin, Durban University of Technology, South Africa
D 440	Arginine vasopressin-induced renal dysfunction in a rodent model of preeclampsia
P113	Assoc Prof Jun Yang, Hudson Institute of Medical Research
	Screening for primary aldosteronism is underutilised in patients with atrial fibrillation: A retrospective cohort study
	Mechanisms of hypertension (physiological, RAAS, molecular, immune, molecular
	biology and others)
P114	Dr Zoe McArdle, Monash University ECR poster finalist
D115	Temporal differences in pressure natriuresis resetting in female and male rats
P115	Mr Gianni Sesa-Ashton, Baker Heart and Diabetes Institute Increased serum short-chain fatty acid concentrations correlate with reduced sympathetic drive in resistant
	hypertension
P116	Dr Pratik Thakkar, University of Auckland, New Zealand ECR poster finalist
	GLP1 receptor agonist ameliorates high blood pressure and high blood sugar in a novel rat model of "glucotension"

	New therapies (devices, pharmacological, non- pharmacological)
P118	Assoc Prof Nalini Govender, Durban University of Technology, South Africa
P119	Does oral administration of Nicotinamide improve renal function in preeclamptic Sprague Dawley rats? Dr Connie Ow, The Florey Institute of Neuroscience and Mental Health
FIIJ	The safety and efficacy of SGLT2 inhibitor and GLP-1 peptide hormone on renal tissue oxygenation and
	histopathology in ovine septic acute kidney injury
P120	Dr Connie Ow, The Florey Institute of Neuroscience and Mental Health ECR poster finalist
	The effects of tempol on renal medullary tissue hypoperfusion, hypoxia and acute kidney injury in established ovine Gram-negative sepsis
P121	Dr Rebecca Reddy, Durban University of Technology, South Africa Assessing the preclinical efficacy of dombeya rotundifolia in an arginine vasopressin rat model of pre-eclampsia
P122	Prof Markus Schlaich, Royal Perth Hospital, University of Western Australia
D102	Effect of the dual endothelin antagonist aprocitentan on albuminuria in patients with resistant hypertension
P123	Prof Markus Schlaich, Royal Perth Hospital, University of Western Australia Impact of arterial stiffness on the blood pressure lowering effect of the dual endothelin antagonist aprocitentan in
	patients with resistant hypertension
	Other
P124	Dr Taku Furukawa, Florey Institute Student poster finalist
P125	Effects of haemadsorption on cardiovascular function and clearance of antibiotics with the HA380 cartridge Ms Jessica Smith and Mehrisa Ram, The George Institute
1 125	Join Us: Supporting recruitment to research studies
P126	Miss Rachel Peiris, The Florey Institute of Neuroscience and Mental Health Student poster finalist
	Splanchnic sympathetic nerve denervation improves bacterial clearance and clinical recovery in established ovine
P127	Gram-negative bacteremia Dr Suzanne Pears, Heart Research Institute
	Acute Blood Pressure Response to Antihypertensives During Anaesthesia in an Experimental Model of
	PreeclampsiaAcute Blood Pressure Response to Antihypertensives During Anaesthesia in an Experimental Model of
	Preeclampsia Dublic Lie altheored Encidemic Lenne
P128	Public Health and Epidemiology Dr Nanthini Akkarapalayam Thirupayukkarasu, Thanjayur Medical College, The Tamilnadu Dr M G B Medical
P128	Public Health and Epidemiology Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India
P128	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross-
	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross- sectional study
P128 P129	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross-
	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross- sectional study Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Prevalence of hypertension and diabetes mellitus among the migrant workers in construction sites in Salem
P129	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross- sectional study Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Prevalence of hypertension and diabetes mellitus among the migrant workers in construction sites in Salem district, India 2024:A cross sectional study
	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross- sectional study Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Prevalence of hypertension and diabetes mellitus among the migrant workers in construction sites in Salem district, India 2024:A cross sectional study Assoc Prof Chris Moran, Monash University
P129	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross- sectional study Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Prevalence of hypertension and diabetes mellitus among the migrant workers in construction sites in Salem district, India 2024:A cross sectional study Assoc Prof Chris Moran, Monash University Antihypertensive choice and cognition in older Australians Dr Issada Trakarnwijitr, Monash University
P129 P132	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross- sectional study Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Prevalence of hypertension and diabetes mellitus among the migrant workers in construction sites in Salem district, India 2024:A cross sectional study Assoc Prof Chris Moran, Monash University Antihypertensive choice and cognition in older Australians Dr Issada Trakarnwijitr, Monash University Sex differences in the treatment and control of hypertension among older Australians
P129 P132 P133	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross- sectional study Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Prevalence of hypertension and diabetes mellitus among the migrant workers in construction sites in Salem district, India 2024: A cross sectional study Assoc Prof Chris Moran, Monash University Antihypertensive choice and cognition in older Australians Dr Issada Trakarnwijitr, Monash University Sex differences in the treatment and control of hypertension among older Australians Pulmonary Hypertension
P129 P132	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross- sectional study Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Prevalence of hypertension and diabetes mellitus among the migrant workers in construction sites in Salem district, India 2024:A cross sectional study Assoc Prof Chris Moran, Monash University Antihypertensive choice and cognition in older Australians Dr Issada Trakarnwijitr, Monash University Sex differences in the treatment and control of hypertension among older Australians Pulmonary Hypertension Dr Luke Fletcher, Austin Health
P129 P132 P133	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross- sectional study Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Prevalence of hypertension and diabetes mellitus among the migrant workers in construction sites in Salem district, India 2024: A cross sectional study Assoc Prof Chris Moran, Monash University Antihypertensive choice and cognition in older Australians Dr Issada Trakarnwijitr, Monash University Sex differences in the treatment and control of hypertension among older Australians Pulmonary Hypertension
P129 P132 P133	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross- sectional study Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Prevalence of hypertension and diabetes mellitus among the migrant workers in construction sites in Salem district,India 2024:A cross sectional study Assoc Prof Chris Moran, Monash University Antihypertensive choice and cognition in older Australians Dr Issada Trakarnwijitr, Monash University Sex differences in the treatment and control of hypertension among older Australians Pulmonary Hypertension Dr Luke Fletcher, Austin Health Differences in direct fick and thermodilution measurements of cardiac output: Impact on pulmonary hypertension
P129 P132 P133	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross-sectional study Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Prevalence of hypertension and diabetes mellitus among the migrant workers in construction sites in Salem district, India 2024:A cross sectional study Assoc Prof Chris Moran, Monash University Antihypertensive choice and cognition in older Australians Dr Issada Trakarnwijitr, Monash University Sex differences in the treatment and control of hypertension among older Australians Preulences in direct fick and thermodilution measurements of cardiac output: Impact on pulmonary hypertension classification Risk factors (diet, obesity, microbiome, exercise, genetics, cardiometabolic and others) Dr Lauren Blekkenhorst, Edith Cowan University
P129 P132 P133 P134 P135	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross-sectional study Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Prevalence of hypertension and diabetes mellitus among the migrant workers in construction sites in Salem district, India 2024:A cross sectional study Assoc Prof Chris Moran, Monash University Antihypertensive choice and cognition in older Australians Dr Issada Trakarnwijitr, Monash University Sex differences in the treatment and control of hypertension among older Australians Pulmonary Hypertension Dr Luke Fletcher, Austin Health Differences in direct fick and thermodilution measurements of cardiac output: Impact on pulmonary hypertension classification Risk factors (diet, obesity, microbiome, exercise, genetics, cardiometabolic and others) Dr Lauren Blekkenhorst, Edith Cowan University Cruciferous vegetable effects on blood pressure in middle-aged and older adults with mildly elevated blood pressure
P129 P132 P133 P134	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross-sectional study Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Prevalence of hypertension and diabetes mellitus among the migrant workers in construction sites in Salem district,India 2024:A cross sectional study Assoc Prof Chris Moran, Monash University Antihypertensive choice and cognition in older Australians Dr Issada Trakarnwijitr, Monash University Sex differences in the treatment and control of hypertension among older Australians Pulmonary Hypertension Dr Luke Fletcher, Austin Health Differences in direct fick and thermodilution measurements of cardiac output: Impact on pulmonary hypertension classification Risk factors (diet, obesity, microbiome, exercise, genetics, cardiometabolic and others) Dr Lauren Blekkenhorst, Edith Cowan University Cruciferous vegetable effects on blood pressure in middle-aged and older adults with mildly elevated blood pressure Prof Clare Collins, University of Newcastle Diet-metabolite relationships with blood pressure in response to healthy versus unhealthy diets
P129 P132 P133 P134 P135	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross-sectional study Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Prevalence of hypertension and diabetes mellitus among the migrant workers in construction sites in Salem district,India 2024:A cross sectional study Assoc Prof Chris Moran, Monash University Antihypertensive choice and cognition in older Australians Dr Issada Trakarnwijitr, Monash University Sex differences in the treatment and control of hypertension among older Australians Pulmonary Hypertension Dr Luke Fletcher, Austin Health Differences in direct fick and thermodilution measurements of cardiac output: Impact on pulmonary hypertension classification Risk factors (diet, obesity, microbiome, exercise, genetics, cardiometabolic and others) Dr Lauren Blekkenhorst, Edith Cowan University Cruciferous vegetable effects on blood pressure in middle-aged and older adults with mildly elevated blood pressure Prof Clare Collins, University of Newcastle Diet-metabolite relationships with blood pressure in response to healthy versus unhealthy diets Mr Nnamdi Eseme, Menzies Institute for Medical Research
P129 P132 P133 P134 P135 P136	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross- sectional study Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Prevalence of hypertension and diabetes mellitus among the migrant workers in construction sites in Salem district, India 2024:A cross sectional study Assoc Prof Chris Moran, Monash University Antihypertensive choice and cognition in older Australians Dr Issada Trakarnwijitr, Monash University Sex differences in the treatment and control of hypertension among older Australians Pulmonary Hypertension Dr Luke Fletcher, Austin Health Differences in direct fick and thermodilution measurements of cardiac output: Impact on pulmonary hypertension classification Risk factors (diet, obesity, microbiome, exercise, genetics, cardiometabolic and others) Dr Lauren Blekkenhorst, Edith Cowan University Cruciferous vegetable effects on blood pressure in middle-aged and older adults with mildly elevated blood pressure Prof Clare Collins, University of Newcastle Diet-metabolite relationships with blood pressure in response to healthy versus unhealthy diets Mr Nnamdi Eseme, Menzies Institute for Medical Research Investigating the relationship between health literacy and cardiovascular diseases among Australian Adults and their
P129 P132 P133 P134 P135 P136	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross-sectional study Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Prevalence of hypertension and diabetes mellitus among the migrant workers in construction sites in Salem district,India 2024:A cross sectional study Assoc Prof Chris Moran, Monash University Antihypertensive choice and cognition in older Australians Dr Issada Trakarnwijitr, Monash University Sex differences in the treatment and control of hypertension among older Australians Pulmonary Hypertension Dr Luke Fletcher, Austin Health Differences in direct fick and thermodilution measurements of cardiac output: Impact on pulmonary hypertension classification Risk factors (diet, obesity, microbiome, exercise, genetics, cardiometabolic and others) Dr Lauren Blekkenhorst, Edith Cowan University Cruciferous vegetable effects on blood pressure in middle-aged and older adults with mildly elevated blood pressure Prof Clare Collins, University of Newcastle Diet-metabolite relationships with blood pressure in response to healthy versus unhealthy diets Mr Nnamdi Eseme, Menzies Institute for Medical Research
P129 P132 P133 P134 P135 P136 P137	Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Hypertension screening an inexpensive technique still under used in rural population of Salem district, India - a cross- sectional study Dr Nanthini Akkarapalayam Thirunavukkarasu, Thanjavur Medical College, The Tamilnadu Dr.M.G.R Medical University, India Prevalence of hypertension and diabetes mellitus among the migrant workers in construction sites in Salem district, India 2024: A cross sectional study Assoc Prof Chris Moran, Monash University Antihypertensive choice and cognition in older Australians Dr Issada Trakarnwijitr, Monash University Sex differences in the treatment and control of hypertension among older Australians Pulmonary Hypertension Dr Luke Fletcher, Austin Health Differences in direct fick and thermodilution measurements of cardiac output: Impact on pulmonary hypertension classification Risk factors (diet, obesity, microbiome, exercise, genetics, cardiometabolic and others) Dr Lauren Blekkenhorst, Edith Cowan University Cruciferous vegetable effects on blood pressure in middle-aged and older adults with mildly elevated blood pressure Prof Clare Collins, University of Newcastle Diet-metabolite relationships with blood pressure in response to healthy versus unhealthy diets Mr Nnamdi Eseme, Menzies Institute for Medical Research Investigating the relationship between health literacy and cardiovascular diseases among Australian Adults and their families
